

SHAREMUSIC SWEDEN

Share Music Sweden

An arts organisation and facilitator, arranging performances and courses in music, dance, theatre and art. At our core is to work towards a society where all human beings should have the opportunity to express themselves as artists in a world where difference is seen as valuable.

The uniqueness of Share Music

The combination of different art forms and performers with and without disabilities is our unique characteristic.

We invite world-renowned artists to share the stage equally with people of varying abilities. Together, they use all art forms to entertain in theatres, to inspire in workshops, to educate in lectures and to collaborate in projects throughout Sweden and internationally. We achieve performances of distinction and professionalism of the highest order.

Focus on Performances

We find stages and platforms in usual and unusual places; travel centers, concert halls, on the street and at festivals. In 2010 Share Music won the Ability Media International Award in dance and was described as an *"exceptional and creatively brilliant company"*.

For a richer society

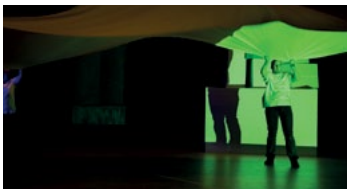

Each Share Music Sweden performer is an ambassador who will go on to relate the significance of the work we do to other performers, artists and audiences. This is what inspires us and keeps us focused on high standards, unique opportunities and a broader artistic life.

Difference is our wealth.

Creativity is our strength.

*We will shine the stage light on all talents
to achieve a more harmonious society.*
